

Digital Sound & Noise Analyzer NC10

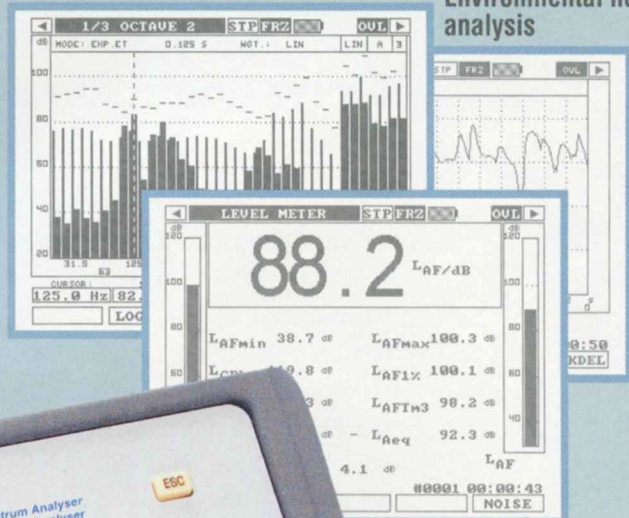

small, portable, flexible, dual channel, battery powered

Cutting-edge DSP technology
with outstanding price/performance ratio

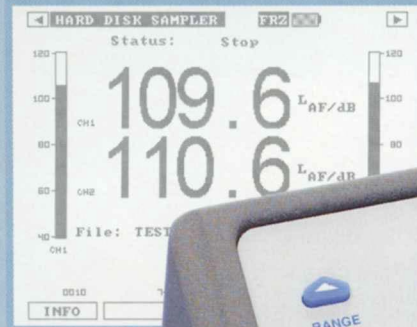

all in one:

- Precision sound level meter
- Third-octave analyzer
- FFT analyzer
- Loudness analyzer
- Reverberation time
- Architectural acoustics
- Hard disk recording
- Event sampler
- 520 MB Data logger
- and more ...

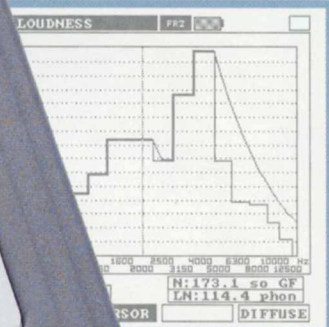

Environmental noise analysis

Sound signal recording and playback

Loudness analysis

Machinery noise analysis

Nachhall
Luftschall
Trittschall

Architectural acoustics
