* Basic Cycle
* Optional Cycle
* Pre-Setting Time : Water Supply - 120 sec.
Drain - 60 sec.
* ~ Time for varies as the temperature or the amount of laundry

* Basic time is minute in washing chart
* The actual program time can be varied with the load amount, water temperature or ambient temperature

- * Pre Wash : If the laundry is heavily soiled, "Pre Wash" course is effective. Pre Wash is available in Cotton and Synthetic Program.
- * Eco : By selecting Eco function, the water temperature is reduced and washing time is lengthened. So you can economize in your consumption of energy.
- * Rinse+ : If you wish to rinse more, the Rinse+ function will remove any trace of detergents.
- * Bio : If you want to eliminate protein stains (milk, blood, chocolate...), you may select Bio function by pressing the option button.
- * Quick 30 : By selecting this function, you may wash a small quantity of colored laundry which is lightly soiled fast.
- * You can select Bio function and Eco function when temperature is higher than 60°C in Cotton and Synthetic. If the function is selected, the beginning water temperature can not be changed.
